# Goodyear Auto Care Sumner Park Rally

“...Because you're never too old”

1<sup>st</sup> December 2007

John Spencer of Goodyear Sumner Park has again enthusiastically stepped up and supported the 2007 Goodyear Auto Care Sumner Park Rally at Gallangowan. Clerk of Course, David Nash and his support team of Neil Michel and Sheridan Hetherman have started early this year to bring something different to the forest for competitors, officials, service crews and spectators.

Not only is it a round of the Clubman, Gemini's and Pocket Rocket Series, approval has been granted from CAMS for an increase in distance over the normal 80kms and an event for schedule R cars. This will ensure great value for money with approximately 20kms of additional competition with minimal liaison distances. The course has been chosen, with approx 100kms of “A” class roads over 3 stages. Including, one stage of over 36kms which Deputy Clerk of Course, Neil Michel claims is one of the most enjoyable and challenging stages he has seen in his 30 years of rally experience. The course includes roads that are not only in fantastic condition but also new to many competitors, some being used for the first time in over 10 years.

With less than 5kms of total liaison for the whole event, central service on the oval and spectator points within a close distance it will prove not only to be compact and action packed but a fantastic end of year atmosphere. As is traditional, camping, showers and catering will be available on the oval to enjoy the end of year festivities.

Remember, for all the regular QRC competitors, as schedule R cars will be allowed to run, this will provide an opportunity for modifications not allowed under QRC competition as well as practice and testing for 2008. Finally, a chance to see how your toy can perform without restrictors and the like!

Why should you be there? “...Because you're never too old”

Keep watching for regular updates and news and remember to support John Spencer at Goodyear Auto Care Sumner Park (ph 3376 200) for all your tyre and mechanical needs, and not forgetting the series sponsors as well.

## President's Report

We are well and truly into the second half rush now. There are BSCC people roaming just about every forest in south east QLD and some paddocks around Goondiwindi. Yes the second half is a busy time with Brian Everett and his team preparing Cooloola, Kathy and her team the last KCF for the year, Rod Sams and Craig Porter the AORC at Gundy, and Neil and Nashy the big finally at Gallengowan. All these teams will need a lot of help both before and during their events so please if you can help contact Berenice at the club rooms.

Our club has a very diverse membership; we have members from nearly every field of motor sport. From gravel rally to bitumen rally to off road to track to motorkhana, so on any given weekend we have members competing somewhere in the country. If you are competing at an event or officiating take the time when you get home to do a small article for this magazine, so other club members can here of the fun or success you are having and maybe inspire a young member to have a

go at your favourite field of the sport

We are still in need of a treasurer on the board, I have been filling in but if you know of any one who would be good for the job please let me know. On the subject of the board, once again if you have any ideas of new events or ideas how we could do things better please don't hesitate to contact me, the more ideas the better we can make our club, remember the more you put into something the more you get out of it.

Congratulations must go to Simon Campbell and Mark Neary who both competed in and finished the Australian Safari. Simon appeared to have a very consistent run just outside the top ten in the cars, but on the last day dropped to 17<sup>th</sup>. Mark who was on a bike had a very mixed bag of luck, after an off he lost a day putting him out of the running. But after a lot of

work for his back up crew (Glen Costello) he soldiered on to finish. This month we will have several members competing in the next round of the ARC at Foster. People like Tony Best, Chris Murphy, Scott Beckworth, Bruce Fullerton, Hugh Riedon- Smith. I am sure you join me in wishing them all the best of luck. Unfortunately Margot and I will not be joining them after a small mishap in South Australia ( Tree 1, Simon nil) But the car is being repaired as we speak and we will be back for Melbourne.

Our clubs next event is KCF 3 on the 15<sup>th</sup> of Sept so please come along and have some fun, Unfortunately this conflicts with the ARC due to calendar changes earlier in the year but that's life.

Until next month play nicely on the track and in the forest and most of all have fun.

Simon Knowles.

## In brief...

### THE TOYOTA KLUGER RALLY OF SOUTH AUSTRALIA

There were a large number of Competitors and Officials from Queensland who made the long trip down to South Australia on the weekend of the 15 - 16 August for the fourth round of the Australian Rally Championship. Bruce Fullerton and Hugh Reardon - Smith had a good result, being 13th Outright on the Saturday and 12th Outright on the Sunday.

Scott Beckwith navigated for John Berne from Sydney and had another consistent result with 18th Outright on the Saturday and 17th Outright on the Sunday. John Allen navigated for Brendon Kaitler from Victoria and they finished both heats being placed 15th Outright on both days.

Tony Best navigated for Derek Reddie from Western Australia. On the Saturday they had a problem with a broken gear linkage but managed to finish in 23rd place. They had a better run on the Sunday and finished in 16th place Outright and picked up the P6 Class win for the weekend.

Chris Murphy navigated for Eli Evans, Simons younger brother, They had a very good run on the Saturday and finished in 7th place Outright. On the Sunday they had engine problems and had to retire. John Goasdoue and Cameron Crevola retired on the Saturday but had a good run on the Sunday finishing 11th.

Simon and Margot Knowles had a good run on the Saturday finishing 16th Outright but were very unlucky to have an accident on the Sunday hitting a tree at high speed. However they were not hurt

and the car is currently being repaired.

Andrew Longuet navigated for Joh Murray snr from Sydney. They finished in 22nd place on the Saturday. Andrew had to return back to Brisbane on the Sunday for family reasons. John managed to find a replacement navigator for the Sunday but was excluded by the Stewards at the first Regroup.

A number of Queenslanders also worked at the event. Our Rally Queensland Clerk of Course, Errol Bailey was the Deputy Clerk of Course. Tim Collingwood helped the Rallycorp Team mainly escorting the Camera Crews for the TV Production. Ian Capps helped with the clocks and Helen Best was Post Chief at a number of Parc Ferme and Regroup Controls.

### AUSTRALIAN SAFARI

In the car section, Simon Campbell finished 1th in the Jeep. Mark Neary, after some bad luck, finished in the back half of the bike field. Congratulations must go to both of these guys and thier teams to finish such a grueling event. Well done to you both

## Fourth for Chris Atkinson in New Zealand

BSCC member Chris Atkinson has secured his third top four result of the year with a fourth placing in Rally New Zealand, round 11 of the 2007 World Rally Championship, this weekend.

The 27-year-old Queenslander was engaged in a tight battle with Jari-Matti Latvala during the final two days of the event for the fourth and fifth positions with the duo exchanging the spots on a number of occasions.

During today's final leg Atkinson and co-driver Stephane Prevot remained composed to post some impressive times throughout the opening five stages before moving ahead of Latvala on the penultimate test, the longest of the day (29.81km Whaanga Coast 2).

Atkinson then extended his slender lead over Latvala in the final pass across the 3.14km Mystery Creek Super Special stage to secure fourth place by a mere 4.6 seconds.

"That was a great fight for fourth, and I'm very happy that we came out on top. It's great for the guys in the team too, and it shows we're getting closer all the time," said Atkinson.

"It would have been nice to be on the podium, and hopefully that's no far away. I think we've had enough fourths now - we want some thirds, seconds and firsts!

"Overall it's been a pretty good rally. We've battled hard all weekend, tried to fight when we could and be cautious when things haven't worked so well. We did our best, and that's all I can do. It's back to asphalt next, and I'm certainly looking forward to that."

While Atkinson was engaged in a tight battle for the fourth position, the action was even closer at the top of the order where championship leader Marcus Gronholm edged out Sebastien Loeb to take outright honours by just 0.3 seconds, the closest result ever in a World Rally Championship event. Mikko Hirvonen rounded out the podium positions ahead of Atkinson and Latvala.

## SHEPHEARD JNR/JOHNSON WIN NQ FOREST RALLY

by Peter Garbett

The Twin Cities Autosports Club overcame last minute weather changes on the weekend of 11/12 July to stage an event of the standard they've become known for. The whole of Townsville seems to embrace the annual event and this year was no exception from the media day, which took in demonstration runs around Reid Park (venue for SS1), to the friendly atmosphere surrounding the awards presentation at Mercure Inn on the Sunday night.

The media day was well attended by what seemed to be half the field but it was the beginning of a weekend of mixed fortunes for one of the local competitors, Ian Ogilvie. Driving his son Shane's Mazda Familia the gearbox failed so the remainder of the afternoon was spent replacing the unit.

Likely favourites for the event Bruce Dummett/Tom Smith/Lancer Evo III were to lead the field away with current QRC points leaders Bruce Fullerton/Rob Reddiex at car 2 in their earlier version Lancer RSE. A solid number of 'southern' competitors fronted for the event including Steve Scott and father Terry in the pretty Subaru WRX at car 3, George Shepheard/Del Garbett/Evo III fourth off the line, David Johanson as usual

driving his co-driver Ian Wright's Datsun 280Z, Steven Shepheard/Michael (Baz) Johnson/Evo II, Adrian Bukmanis/John Ahern/Honda Civic, Viv Gees/Brad Wedlock/Falcon, and the full complement of Keema Suzuki Balenos but with Claire Swallow as stand in co-driver for Rod Cross.

Event Winners  
Steven Shepheard & Michael (Baz) Johnson in an Evo III

The rain which was so much a problem during the 1996 event was perhaps less difficult to deal with this time due to the choice of roads, the organisers favouring those based on decomposed granite rather than the many black soil tracks that abound in the Cardwell area around which the event proper was based.

SS2, the first forest stage spelt the end of the rally for Dummett's Evo III which was left upside down after a tricky apex. In SS3 the beautiful Byron Bay Hat Co. Subaru WRX of Steve Wall/Gary Briggs became the second dnf.

A re-group followed and then SS7 "Singhs" which really through a spanner in the works mainly due to the now

## Report from Toyota Kluger Rally of South Australia Focusing on the Queenslanders

### Full-On Rallysport REPORT

A record number of competitors from Queensland took the long drive across Eastern Australia to compete in the 2007 Toyota Kluger Rally of South Australia. It is just over 1800km from Toowoomba to Nuriootpa in the Barossa – about 20 hours of towing if you drive straight through – a long long way!

The highest seeded Queenslander was Chris Murphy, sitting in the right hand seat next to Eli Evans in their LHD Yokohama WRX. We saw them at testing on the Friday, getting everything set up, ready to start at car 5 in the 70 strong field.

With Mark Stacey again absent from Michael Guest's Fiesta, next Sunshine State competitors were John Goasdoue/Cameron Crevola at car 15 in the Desitrol Evo 5 followed by ourselves, Bruce Fullerton/Hugh Reardon-Smith in the Fullerton Financial Services Evo 6 at car 19. Next up was John Allen in with Brendon Kaitler (Evo 6), Tony Best with Derek Reddie (VR4), Scott Beckwith with John Berne (Impreza RS) and Simon and Margot Knowles in their Evo 6 at car 27.

### Heat 1

TK Rally SA is made up of superfast smooth shire roads around the Barossa, mixed with 2 stages repeated 5 times in the forestry complex around Mt Crawford. These get pretty cut up by late Sunday, but it is the main spectator area, although all along the shire roads there were spectators, which was great.

However, this year the rally started at the Angaston Oval with a 0.93km stage on the bitumen roads around the oval run twice in front of a very healthy crowd. Plenty of drivers gave this a real go, and with a couple of tricky handbrake turns and a long sliding corner, there were a few spins – always popular with the crowd.

Saturday started with the first runs through the Forestry complex and a shire road stage, and the field soon settled into an order. This event is surprising in that there are relatively few retirements, especially given the speeds on some stages, so it becomes very competitive.

The day had 3 runs through the forestry complex and 3 shire stages, along with another 2 runs around Angaston, where Steve Glennie had 2 spins losing out to Simon Evans by just 0.9 seconds, after having led the event all day and entering this super special with a 5.6 second lead – how cruel!

At the finish Eli and Chris finished 6<sup>th</sup> outright, with Bruce and Hugh the next Queenslanders in 13<sup>th</sup> and 3<sup>rd</sup> in the rally.com Challenge, having been close to Paul Batten and John Murray Jnr all day and well ahead of Kaitler with John Allen. Simon and Margot Knowles posted one of their best ARC finishes with 16<sup>th</sup> outright, ahead of Berne with Scott Beckwith.

One of the more spectacular retirements was John Goasdoue's – he and Cameron were flying along in top gear heading towards a narrow bridge when the transfer case seized up, which locked the back wheels sending the car spinning down the track. John managed to avoid everything solid (one marker post came off second best!) to bring the car to a halt, but it was a moment he didn't want to repeat. Tony Best's ride also retired with a less dramatic mechanical problem.

### Heat 2

The first 2 stages were new shire road stages, so a good challenge to start the day.

We all thought the organizers were too soft when the start of the first stage was delayed first by fog, and then by the zero car conking out in a creek crossing, which actually had water in it – a unique experience to all Queenslanders competing! Everyone behind the

leading cars thought there was a great opportunity to improve their seeding if the leaders had had to ease up with the fog!

However, this first stage Goldfields Reverse saw some of the top speeds for the rally. The Full-On Rallysport Evo 6 topped out at 185 km/hr in this stage, and set a good time to be 16<sup>th</sup> outright. The next stage was also a cracker – another with a section of bitumen in the stage – and Bruce and Hugh went back to service in 14<sup>th</sup>, just behind Goasdoue/Crevola.

The middle group of stages included Eden High, 21 km of possibly the best stage in Australia. It is a real challenge for both driver and navigator, as the calls and corners speed up over the second half, and is a real buzz when you reach the finish.

Unfortunately it wasn't good for the Knowles who were just a fraction off-line going through a series of fast bends and instantly retired after making contact with a tree. Fortunately the crew were unhurt but the car will take a little while to repair. A real shame as they were setting good times again.

It was also in this group of stages that Evans/Murphy's run was over as the WRX stopped with electrical woes.

The last section included the 5<sup>th</sup> and final run through the forestry stages – some real ruts by now – and an 11.5 km shire road stage to finish off, which was so smooth and packed down that black rubber was laid down on the startline!

John Goasdoue/Cameron Crevola finished first Queenslanders in 11<sup>th</sup> with Bruce Fullerton/Hugh Reardon-Smith close behind in 12<sup>th</sup> and 2<sup>nd</sup> in the Challenge, John Allen with Kaitler 14<sup>th</sup>, Tony Best with Reddie in 15<sup>th</sup> and Scott Beckwith 16<sup>th</sup>.

### **SA Snippets**

The Angaston stage was good but from a spectator safety point of view, the long left hand corner saw a few drivers have a moment and you'd hate the barrier there to have been tested. Top speeds were

over 90 km on this short blast. However, the crowd was god and the action non stop as cars started almost every minute.

The timing was unique, in that you were on the startline behind the beam ready to go, but only given 5 seconds warning, and it didn't matter where the clock was when you started – 10 seconds before the minute, 7 seconds after, so working out the time was not easy, but it kept everything moving well.

The repeated Forestry stages were hard to master, and as they eroded rock surfaces became exposed, including putting cars well up on 2 wheels in a 3<sup>rd</sup> gear LH corner – must have been why the TV cameras were there!

The shire roads were fantastic. The Full-On Rallysport team averaged 110 km/hr over the 21 km Eden High stage – what a hoot! There would have been a total of 6 km of bitumen through a couple of these stages, but the rally tyres still provided excellent grip and progressive sliding.

The 7 shire road stages go past something like over 300 properties, and many of these people turn out to watch. We wondered how the organizers get permission to close these roads and get all the residents on board, but apparently when Adelaide got the F1 Grand Prix in 1985, the SA Government passed a law allowing roads to be closed for motorsport. So, although the organizers have a good relationship with the locals, they can close the roads anyway. Not bad.

It was great to see Steve Glennie/Bernie Webb take the challenge right up to Simon and Sue Evans, but equally impressive to see the Evans' respond and never give up. Glennie led almost all of Saturday until the final stage.

All in all, this rally has some fantastic roads, and it was well worth the trip. Thanks to the organizers and the sponsors of the Full-On Rallysport team – Fullerton Financial Services, Prime Haulage and Pioneer Seeds.
